## Now Online In One Resource: *The Moscow University Herald*

Online access to scholarly and scientific works published in the renowned *Vestnik MGU* (The Moscow University Herald) is now available from East View through the **Universal Database of the Moscow University Herald**.

*Vestnik MGU*, published by the most prominent academic institution in Russia: Moscow State University, 25 different topics on all important areas of scientific knowledge, ranging from mathematics and chemistry to economy, law and history. The database also contains two correlating journals: *The Bulletin of the Moscow Society of Nature Studies: Biology* and *The Bulletin of the Moscow Society of Nature Studies: Geology*.

The UDB-MGU database provides wealth of research materials to scholars in various areas of knowledge, especially working in the cross-disciplinary fields and studying the latest scientific developments in Russia.

Now at <http://dlib.eastview.com> the database is:

- ◆ **Rich in content and research value**—in full-text, without the superfluous material freely accessible on the web.
- ◆ **User friendly**—includes Cyrillic transliteration in a virtual keyboard, browse capability and easy navigation English language interface
- ◆ **Flexible search options**— better than print, allowing users to search the entire database or only within individual titles
- ◆ **Geared for libraries**, with content updates, permanent URLs, usage reports, perpetual access and direct authentication for an unlimited number of patrons
