

## RECOMMENDED NEW TITLES IN RUSSIAN

Vol. 1, No. 1

books@eastview.com

sept

Welcome to the first in a series of periodic efforts to keep you abreast of new titles from Russia for libraries and readers.

Inside are but a few of the 75,000 works published in Russia over the past year, and only a tiny fraction of the 250,000 titles available from East View.

These titles barely scratch the publishing surface of a country so vast it spans 11 time zones, a country of 150 million inhabitants with a rich cultural and literary tradition, in Russian and a dozen vernacular tongues.

But their popularity as firm orders and in approval plan shipments makes them solid candidates to add to your collection as well.

Since 1989, libraries and researchers have used East View to bridge the gap between publisher and bookshelf that exists with publications from Russia and other former Soviet countries.

I urge you to take advantage of the special offer on the Order Form by making your selections today.

Sincerely,

A handwritten signature in black ink, appearing to be "K. Lee".
