China Data Center

The China Data Center (CDC) at the University of Michigan is an international center for the advancement of research on China. The CDC supports research by providing high-quality data products and advanced tools. CDC's Census, statistical and GIS data products offer unique value for understanding China at the national, provincial, city, district, county, and township levels.

Database Specifications

- Format**
- CD-ROM
 - All maps are in Shape file format

2000 China Province Population Census Data with GIS Maps

- Coverage**
- 2,000 China provincial GIS maps
 - More than 2,000 attribute variables

2000 China County Population Census Data with GIS Maps

- Coverage**
- 2,000 China county GIS maps
 - More than 2,000 attribute variables

2000 China Township Population Census Data with GIS Maps

- Coverage**
- 2,000 China township GIS maps
 - More than 2,000 attribute variables

China Historical Province Population Census Data with GIS Maps

- Coverage**
- Province GIS maps for 1953, 1964, 1982, 1990 and 2000
 - Population Census data integrated with province GIS maps

China Historical County Population Census Data with GIS Maps

- Coverage**
- County GIS maps for 1953, 1964, 1982, 1990 and 2000
 - Population Census data integrated with county GIS maps

China Statistical Indicators with Maps

- Coverage**
- Prefecture city and county level city GIS maps
 - Yearly city statistical data integrated with city GIS maps
 - Data starting from 1996
 - More than 200 attribute variables
