

China 2004 Economic Census Data with Zip Maps

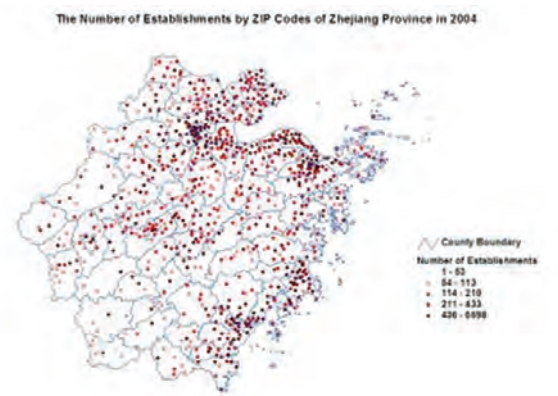

The best source for population Zip maps on China.

China 2004 Economic Census ZIP Maps is a value-added data product for understanding the first economic census undertaken in China. The 2004 Economic Census combines the data of the Industrial Census, Basic Unit Census and Construction Census of previous years and provides extensive data on industries, major products and services, property ownership, employment, and revenues for all sectors of enterprise across Mainland China.

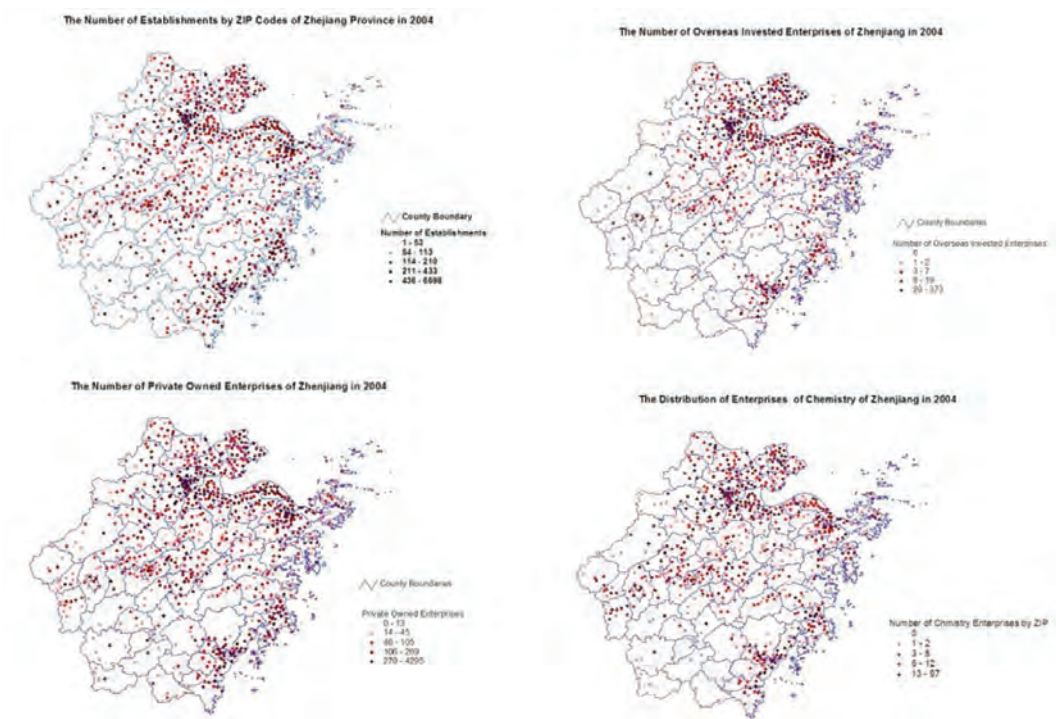

China Data Center

The China Data Center (CDC) at the University of Michigan is an international center for the advancement of research on China. The CDC supports research by providing high-quality data products and advanced tools. CDC's Census, statistical and GIS data products offer unique value for understanding China at the national, provincial, city, district, county, and township levels.
