

## The Provincial Collections of GIS Maps with Census Data

The best source for population GIS maps on China.

The "Provincial Collection" provides a rich and unique resource for regional studies, which include:

- Provincial GIS Map with 2000 Population Census Data
- County GIS Map with 2000 Population Census Data
- Township GIS Maps with 2000 Population Census Data
- Historical GIS Maps with Census Data [1953, 1964, 1982, 1990, 2000]
- Population One Sq Km GRID Map with Township Boundaries

The Collection also includes some other GIS layers such as river and road network of each province.

### China Data Center

The China Data Center (CDC) at the University of Michigan is an international center for the advancement of research on China. The CDC supports research by providing high-quality data products and advanced tools. CDC's Census, statistical and GIS data products offer unique value for understanding China at the national, provincial, city, district, county, and township levels.

# Database Specifications
