

The Completed Collection of China Provincial Statistical Yearbooks

The best source for statistical data on China.

The Complete Collection of China Provincial Statistical Yearbooks (2002-) covers comprehensive statistics of each province, which reflects various aspects of the social and economic development at provincial and prefecture levels.

China Data Center

The China Data Center (CDC) at the University of Michigan is an international center for the advancement of research on China. The CDC supports research by providing high-quality data products and advanced tools. CDC's Census, statistical and GIS data products offer unique value for understanding China at the national, provincial, city, district, county, and township levels.
