

GIS Edition
ARGENTINA 2010 CENSUS

- 100% population coverage
- 12,209,200 data points
- ADM 4 for 52,400 census units
- 233 census variables

More than numbers. Census data provides unparalleled insight into the lives of individuals. East View presents the Argentina 2010 Census as part of the East View Global Census Archive® (GCA). The Argentina 2010 Census addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Spanish, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.

Note: The Argentina 2001 Census (GIS Edition) is also available through GCA

CENSUS OVERVIEW

Year: 2010
Population Coverage %: 100
Geography Coverage %: 100
Smallest Geography Name: Sectores
ADM Level: 4
Polygons at ADM: 52,400
Number of Questions: 42
Number of Answers: 233
Data Points: 12,209,200
Urban/FG: FG

Notes
- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

DELIVERABLES

The Argentina 2010 Census has 100% population coverage, over 12 million data points, and consists of:

Geodatabase
- Intuitive organization of census data
- Administrative boundary vector data at ADM 4 (Sectores) for 52,400 census units
- Vector and aggregated tabular data at the Sectores level

Shapefiles
- All vector and census data in ESRI Shapefile format

Census Guide
- Detailed descriptions for 233 census variables

Original Census Documentation and Database
- Delivered in native format
- Census questionnaires

Metadata
- Full attribute level metadata in FGDC ISO format

ADM 4/0 boundaries for all of Argentina; area in red, over Misiones Province, is available as sample data
