## OVERVIEW AND BACKGROUND

The 2002 Census in Chile took place April 24th, 2002. 15,116,435 inhabitants were counted by the nearly 380,000 enumerators. Results were published not only in print, but also on compact disc and to an online data portal for the first time. The National Institute of Statistics employed private companies to provide state-of-the-art data processing technologies, allowing it to disseminate results within one year of the census date.
