PARAGUAY 1992 CENSUS

- **33% population coverage**
- **35,146,480 data points**
- **ADM 6 for 51,085 census units**
- **688 census variables**

More than numbers. Census data provides unparalleled insight into the lives of individuals. East View presents the Paraguay 1992 Census as part of the East View Global Census Archive® (GCA). The Paraguay 1992 Census addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Spanish, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.

Note: The Paraguay 2002 Census (GIS Edition) is also available through GCA

CENSUS OVERVIEW

Year: 1992

Population Coverage %: 33

Geography Coverage %: 0.3

Smallest Geography Name: Manzanas

ADM Level: 6

Polygons at ADM: 51,085

Number of Questions: 46

Number of Answers: 688

Data Points: 35,146,480

Urban/FG: Urban

Notes
- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

DELIVERABLES

The Paraguay 1992 Census has 33% population coverage, over 35 million data points, and consists of:

Geodatabase
- Intuitive organization of census data
- Administrative boundary vector data at ADM 6 (Manzanas) for 51,085 census units
- Vector and aggregated tabular data at the Manzanas level

Shapefiles
- All vector and census data in ESRI Shapefile format

Census Guide
- Detailed descriptions for 688 census variables

Original Census Documentation and Database
- Delivered in native format
- Census questionnaires

Metadata
- Full attribute level metadata in FGDC ISO format
