China Conference Proceedings

A comprehensive picture of academic discussion in China's premier institutions

China Conference Proceedings (CPCD-CPFD, 中国重要会议论文全文数据库) is the most comprehensive full-text database of proceedings from national conferences in China. Offered via the China National Knowledge Infrastructure (CNKI, 中国知网) platform, it provides access to the full spectrum of academic discussion in China's premier institutions, delivering information from meetings of academic institutions, industrial organizations, governmental agencies and international bodies. Through its partnerships with over 10,500 academic societies and associations, CPCD-CPFD includes over 2.8 million papers from over 20,000 conference proceedings (with some going as far back as 1953), accounting for more than 90% of all national conference proceedings. CPCD-CPFD offers robust navigation and search tools, and provides expanded information for each paper, including links to similar documents, documents from related authors and institutions, and documents on related subjects.

China Conference Proceedings is offered through East View's China Research Gateway.
Launched in 2022, China Research Gateway (CRG) transforms library access to Chinese resources by combining multiple databases into one package, supported by an accessible and user-friendly English-language portal. To learn more about CRG, please visit the CRG home page.

Key Stats

- **Archive:** 1953-present
- **Language:** Chinese with English interface
- **Country:** China
- **Frequency:** Continuous updates
- **Format:** Full text, PDF or HTML
- **Producer:** Tongfang Knowledge Network Ltd.
- **Platform:** CNKI (TKN)

About CPCD-CPFD

China Conference Proceedings includes compete coverage of proceedings from major domestic conferences:

- Over 2.8 million papers from over 20,000 conference proceedings
- Publications start from 1999, with some dating back to 1953
- Partnerships with over 10,500 academic societies and associations
- Inclusion rate of literature is as high as 95%
- Continuous updates with approximately 100,000 new proceedings added annually

CPCD-CPFD is organized into 10 subject series:

Science and Technology Titles

- Physics/Astronomy/Mathematics (Series A)

- Chemistry/Metallurgy (Series B)
- Industrial Technology/Engineering (Series C)
- Agriculture (Series D)
- Medicine/Health (Series E)
- Electronics/Information Science (Series I)

Social Science and Humanities Titles

- Literature/History/Philosophy (Series F)
- Politics/Military Affairs/Law (Series G)
- Education/Social Sciences (Series H)
- Economics/Management (Series J)

Features and Functions

- **Navigation:** Supports browsing by conferences, proceedings, sponsors, specialties (subjects), industries, parties and administrations.
- **Search:** Offers quick, basic, professional, scholar, fund, sentence, and source searches, as well as searching within proceedings. Users can search multiple fields, including subject, title, keywords, abstract, full text, proceeding title, references, China Library Classification (CLC) code, author, first author, institution, and conference date, name, level, sponsor, and contributor.
- **Grouping and sorting:** Group results according to subjects, organizers, funding, research level, authors, agencies, and more.
- **Knowledge networks:** CNKI's Knowledge Network Node provides expanded information for each paper including citation network, similar documents, documents from related authors and institutions, and documents on related subjects.
- **Comprehensive content:** The inclusion rate of national-level conference papers is higher than 90%, and the the inclusion rate of designated "important" conference papers is 95%. Proceedings of important and continuous conferences are all collected, with papers from some continuous conferences dating back to 1953.
- **High quality content:** Focus on collecting proceedings from conferences of well-known organizations, key national laboratories, and major national research projects.
- **Fast updates:** China Conference Proceedings works closely with academic associations so that content is updated online no more than one month after a

conference has occurred.
