

International Conference Proceedings

A comprehensive picture of academic discussion at premier international conferences

International Conference Proceedings (CPCD-IPFD, 国际会议论文全文数据库) collects proceedings of international conferences, with a focus on conferences hosted or organized by well-known and respected international organizations and academic institutions. These include conferences hosted by organizations such as the Institute of Electrical and Electronics Engineers, the international society for optics and photonics, Russian State Specialized Academy of Arts, the International Association of Computer Science and Information Technology, and the International Institute of Chemical, Biological and Environmental Engineering. Offered via the China National Knowledge Infrastructure (CNKI, 中国知网) platform, CPCD-IPFD includes nearly 1 million papers from nearly 10,000 international conferences on a wide range of subjects, from 2010 to present, with papers from some continuous conferences dating back to 1981. CPCD-IPFD offers robust navigation and search tools, and provides expanded information for each paper, including links to similar documents, documents from related authors and institutions, and documents on related subjects.

International Conference Proceedings is offered through East View's China Research Gateway. Launched in 2022, China Research Gateway (CRG) transforms library access to Chinese resources by combining multiple databases into one package, supported by an accessible and user-friendly English-language portal. To learn more about CRG, please visit the CRG home page.

Key Stats

- **Archive:** 1981-present
- **Language:** Chinese with English interface
- **Country:** China
- **Frequency:** Continuous updates
- **Format:** Full text, PDF or HTML
- **Producer:** Tongfang Knowledge Network Ltd.
- **Platform:** CNKI (TKN)

About CPCD-IPFD

International Conference Proceedings includes nearly 1 million papers from nearly 10,000 international conferences. Content within CPCD-IPFD is organized into 10 series, with 168 subjects:

Science and Technology Titles

- Physics/Astronomy/Mathematics (Series A)
- Chemistry/Metallurgy (Series B)
- Industrial Technology/Engineering (Series C)
- Agriculture (Series D)
- Medicine/Health (Series E)
- Electronics/Information Science (Series I)

Social Science and Humanities Titles

- Literature/History/Philosophy (Series F)
- Politics/Military Affairs/Law (Series G)
- Education/Social Sciences (Series H)
- Economics/Management (Series J)

Features and Functions

- **Navigation:** Supports browsing by conferences, proceedings, sponsors, specialties (subjects), industries, parties and administrations.
- **Search:** Offers quick, basic, professional, scholar, fund, sentence, and source searches, as well as searching within proceedings. Users can search multiple fields, including subject, title, keywords, abstract, full text, proceeding title, references, China Library Classification (CLC) code, author, first author, institution, and conference date, name, level, sponsor, and contributor.
- **Grouping and sorting:** Group results according to subjects, organizers, funding, research level, authors, agencies, and more.
- **Knowledge networks:** CNKI's Knowledge Network Node provides expanded information for each paper including citation network, similar documents, documents from related authors and institutions, and documents on related subjects.
- **Fast updates:** Papers are updated online no more than one month after print publication.
