

Russian Academy of Sciences: STM Journals (UDB-STM)

A collection of Russia's most important scientific research

The Russian Academy of Sciences: STM Journals (UDB-STM) collection presents Russia's most important scientific research from the peer-reviewed journals of the prestigious Russian Academy of Sciences, published by the well-known Nauka Publishing House. These titles are now searchable and available online—for the first time internationally—on East View's Universal Database platform, arranged into nine collections in all.

East View's Universal Database™ Platform

As the largest provider of authoritative information on Russia and the former Soviet Union, East View offers an innovative approach to electronic research. We maintain redundant hosted environments for this content in Minneapolis and Moscow on our Universal Database™ platform (UDB).

Customize and Optimize Your Library

- Build collections from individual online titles
- Link options for Online Public Access
- IP/password access to standard or custom collections
- Stable URLs for linking on a database level or on individual title and article levels
- Mirror servers in U.S. and Russia
- Usage reports in COUNTER format

Increase Your Efficiency

- Interface functions are optimized for specific content types
- Browse by specific title and issue
- Mobile friendly access
- Easily exportable citations
- Transliteration, Russian, Ukrainian or English language searches
- Virtual Russian and Ukrainian keyboard displays available for ease of input
