

## Russian Regional Newspapers (UDB-REG)

**Comprehensive coverage of regional news, current events, economic developments and cultural events in Russia**

The Russian Regional Newspapers (UDB-REG) collection provides close-up coverage of developments throughout Russia's regions. The collection currently includes newspapers from all seven Federal Districts of the Russian Federation and as well as newspapers focusing on local issues of Moscow and St. Petersburg. The collection represents such noteworthy regions as the troubled Northern Caucasus (*Groznenskii rabochii* from Chechnya, *Severnaia Osetiia* from Northern Osetia-Alania, etc.), oil and gas rich Western Siberia (*Tiumenskie izvestiia*, etc.), the investment-friendly Volga region (*Nizhegorodskie novosti* from Nizhnii Novgorod or *Samarskie izvestiia* from Samara), and many others. The selected newspapers have the largest circulation in their regions and are considered the most authoritative.

# East View's Universal Database™ Platform

As the largest provider of authoritative information on Russia and the former Soviet Union, East View offers an innovative approach to electronic research. We maintain redundant hosted environments for this content in Minneapolis and Moscow on our Universal Database™ platform (UDB).

## Customize and Optimize Your Library

- Build collections from individual online titles
- Link options for Online Public Access
- IP/password access to standard or custom collections
- Stable URLs for linking on a database level or on individual title and article levels
- Mirror servers in U.S. and Russia
- Usage reports in COUNTER format

## Increase Your Efficiency

- Interface functions are optimized for specific content types
- Browse by specific title and issue
- Mobile friendly access
- Easily exportable citations
- Transliteration, Russian, Ukrainian or English language searches
- Virtual Russian and Ukrainian keyboard displays available for ease of input
