THE RAFU SHIMPO

The Rafu Shimpo is the preeminent Japanese American newspaper in the United States. The paper began in 1903 supporting the small but growing Japanese community in the Little Tokyo area of Los Angeles, California. By the 1940s it was the most widely circulated paper in the region and included a weekly English section for second generation Japanese Americans. The Rafu Shimpo rests squarely at the scholarly intersection of Japanese history and the Japanese-American émigré community, especially in California, with its unique coverage of news, community history, and announcements of births, marriages, and deaths. Scholars of Japanese history and émigré communities will find this to be a valuable source for research with full search capabilities. Media and literary scholars will appreciate the rich archival history of the paper, with full high-quality page images (including photos, graphics and advertisements) from every issue available.

MAINICHI SHIMBUN “MAISAKU”

The Mainichi Shim bun (Daily News) is the oldest existing Japanese daily newspaper with a history spanning over 140 years, from the Meiji era (1868–1912) when reforms were implemented in education, economics, military, foreign relations, and politics. During these transformative years, two newspapers were established: the Tokyo Nichi Nichi Shim bun 東京日日新聞, in 1872, and the Osaka Nippo 大阪日報, in 1876. The two papers merged in 1911, and were placed under the Mainichi Shim bun masthead in 1943. Mainichi Shim bun continues to be one of the most important daily newspapers in Japan today.

East View Archive Editions East & Southeast Asia Collection

The East View Archive Editions (formerly known as Cambridge Archive Editions) East & Southeast Asia Collection presents rich historical reference materials on political, territorial, and ethnic issues. From the 16th century onward, Great Britain established consulates wherever possible. In East and Southeast Asia, there were British officials in Beijing, Shanghai, Hong Kong, Singapore, Taiwan, Tokyo, and more, all in the effort to further trade relations. The by-product was a steady stream of written information and observations on the national heritage and political development of many countries, made at a local level. These reports were preserved as historically authentic documents in facsimile, as well as numerous maps. The material is particularly rich for the study of boundary formation, claims and disputes, allowing users to easily find unique insight in maps, government documents, and more.

NEW! SOUTH CHINA SEA ISLAND DISPUTES: 1877–1988

Presented on the East View Archive Editions platform, this collection is an assembly of select texts, maps, and official documents from various national archives that present a primary record of multiple international territorial disputes surrounding the South China Sea and its various islands in the period 1877 to 1988.

South China Sea Island Disputes 1877–1988 presents the complex web of history, trade, and diplomatic engagement in this region of multiple, adjacent international interests. Chinese claims purport to go back to the Han Dynasty, while part of the Chinese argument vis-à-vis Vietnam is that the predecessor of the modern Vietnamese state was a Chinese vassal. Some Vietnamese claims hinge on succession to French rights, especially in regard to the Paracel Islands. Relations among some claimants reflect centuries of rivalry and antagonism that have exacerbated the island disputes and have led to armed conflict. The documents presented in the present collection mirror these tensions, the historical and legal context of which is critical to researching the positions of all parties. COMING SOON THE CHINESE SOVIET REPUBLIC: PROTOTYPE FOR A REVOLUTION

This collection of bulletins, letters, telegrams, and other documents originates from the Chinese Soviet Republic, a short-lived communist state founded by Mao Zedong and Zhu De on November 7, 1931, the fourteenth anniversary of Russia’s October Revolution. The many thousands of pages of documents gathered by Hoover Institution archivists were microfilmed to preserve them and make them available to scholars worldwide. Nothing of their kind had ever before been available outside China. Because of the tremendous significance of the collection, later known as the Chen Cheng Collection at Hoover, a detailed finding aid was created by Tien-Wei Wu at Harvard University’s Harvard-Yenching Library. Mr. Wu’s finding aid (completed in 1981) has provided the key organizational structure to the present, digital edition of the Chen Cheng Collection, the first of its kind.

Mass Mobilization in China to Battle Epidemic

(Xinhua News Agency, Jan. 27, 2020. Complete text:) Beijing – China extended the Spring Festival holiday and postponed school openings on Monday [Jan. 27] while transport restrictions have been adopted in various areas to further contain the coronavirus outbreak.

The seven-day Spring Festival vacation, scheduled to end on Jan. 30, was extended to Feb. 2. Universities, primary and middle schools and kindergartens across the country will postpone the opening of the spring semester until further notice, according to the General Office of the State Council.

Entrusted by Xi Jinping, general secretary of the Communist Party of China (CPC) Central Committee, Premier Li Keqiang on Monday arrived in Wuhan, central China’s Hubei Province, to inspect the epidemic prevention and control work and meet with local officials.

Party and state officials have made clear that the situation in the province is serious. The epidemic situation is highly contagious and must be treated as a matter of utmost urgency. The situation must be contained at any cost.

The Lanzhou bureau of China Railway on Monday suspended the operation of all train services in the area. The bureau has ordered a comprehensive cleaning and disinfection work. Each carriage of the train is ordered to be disinfected every day. The entrances and exits, escalators, self-service machines, toilets and other public areas of subway stations are to be disinfected every day. On Monday, the northern port city of Tianjin and the eastern province of Zhejiang and Anhui as well as the southwestern city of Chongqing have extended the Spring Festival holiday and postponed school openings. The pneumonia situation has resulted in about 2,744 confirmed cases of pneumonia caused by the novel coronavirus (2019-nCoV), including 461 in critical condition, had been reported in the country by the end of Sunday. “Doctors, nurses and medical staff in Hubei are under great pressure,” said Yang Xiaoxia, a villager in Lantian county, northwestern China.

“Doctor, I have been coughing for two days. Do I have the novel coronavirus?” a patient asked doctors from a hospital in southwest China’s Sichuan Province. “Our 96 grassroots staff members are all working eight hours a day. We have been visiting households and monitoring body temperatures of returning migrant workers every day,” said Wu Jihai, Party chief of a block office in the city of Shangqiu, eastern China’s Henan Province.

“Are you returning from Hubei?” a policeman asked a migrant worker in the city of Yuncheng in northern China’s Shanxi Province. “I have ‘seen’ over 50 patients every day since the launch of online fever clinic services to help control the epidemic,” said Fan Wei, a doctor from the city of Lanzhou in northwest China’s Gansu Province.

“Today, the number of confirmed cases in Hubei was 2,188, the largest daily increase so far. Strict measures have been implemented in rural areas,” said Xu Zhourong, general secretary of the Communist Party of China (CPC) Central Committee.

“Strict measures have been implemented in rural areas. Nearly 90% grassroots staff members are all working eight hours a day. We have been visiting households and monitoring body temperatures of returning migrant workers every day,” said Wu Jihai, Party chief of a block office in the city of Shangqiu, eastern China’s Henan Province. She has a one-month-old grandson during the Spring Festival. China has stressed all-around community-based efforts to prevent and control the spread of pneumonia caused by the novel coronavirus.

“We must give full play to the mobilization ability of primary-local communities, including rural communities, to personnel training and management among efforts to curb the spread of the virus,” said Wu Jihai, an official with the National Health Commission on Monday.
