

# GIS Edition MEXICO / MÉXICO 2010 CENSUS

- 68.5% population coverage
- 439,198,110 data points
- ADM 6 for 2,311,569 census units
- 190 census variables

**More than numbers.** Census data provides unparalleled insight into the lives of individuals. East View presents the Mexico 2010 Census as part of the East View Global Census Archive® (GCA). The Mexico 2010 Census addresses a wide range of topics at the highest level of detail possible. Available for purchase, this is the premier source of demographic data for academic research.

**Making information available.** When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Spanish, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.
