More than numbers. Census data provides unparalleled insight into the lives of individuals. East View presents the Argentina 2010 Census as part of the East View Global Census Archive (GCA). The Argentina 2010 Census addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Spanish, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see firsthand how the data was gathered.

CENSUS OVERVIEW

| Year: 2010 | Polygons at ADM: 52,400 |
| Population Coverage %: 100 | Number of Questions: 42 |
| Geography Coverage %: 100 | Number of Answers: 233 |
| Smallest Geography Name: Sectores | Data Points: 12,209,200 |
| ADM Level: 4 | Urban/FG: FG |

Notes
- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

DELIVERABLES

The Argentina 2010 Census has 100% population coverage, over 12 million data points, and consists of:

Geodatabase
- Intuitive organization of census data
- Administrative boundary vector data at ADM 4 (Sectores) for 52,400 census units
- Vector and aggregated tabular data at the Sectores level

Shapefiles
- All vector and census data in ESRI Shapefile format

Census Guide
- Detailed descriptions for 233 census variables

Original Census Documentation and Database
- Delivered in native format
- Census questionnaires

Metadata
- Full attribute level metadata in FGDC ISO format
Below is a representative sample of census questions included in the Argentina 2010 Census.

1. Demographic
   Relationship / Sex / Birth data and age / Marital status

2. Migration
   Place of birth

3. Social
   Literacy / School attendance / Educational attainment

4. Economic
   Activity status

5. Housing
   Location of living quarters / Occupancy status / Ownership / Drinking water / Toilet / Sewage disposal / Fuel used for cooking / Use of housing unit / Occupancy by one or more households / Number of occupants / Building type / Construction material of floor, roof / State of repair / Characteristics of head or other reference member of household / Information and communications technology / Durable household appliances
