More than numbers. Census data provides unparalleled insight into the lives of individuals. East View presents the El Salvador 2007 Census as part of the East View Global Census Archive (GCA). The El Salvador 2007 Census addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Spanish, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see firsthand how the data was gathered.

Notes
- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers.
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census.
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places.

DELIVERABLES

The El Salvador 2007 Census has 92.4% population coverage, over 300,000 data points, and consists of:

**Geodatabase**
- Intuitive organization of census data
- Administrative boundary vector data at ADM 2 (Municipios) for 273 census units
- Vector and aggregated tabular data at the Municipios level

**Shapefiles**
- All vector and census data in ESRI Shapefile format

**Census Guide**
- Detailed descriptions for 1,162 census variables

**Original Census Documentation and Database**
- Delivered in native format
- Census questionnaires

**Metadata**
- Full attribute level metadata in FGDC ISO format
Below is a representative sample of census questions included in the El Salvador 2007 Census:
