

More than numbers. Census data provides unparalleled insight into the lives of individuals. East View presents the Egypt 2017 Census as part of the East View Global Census Archive® (GCA). The Egypt 2017 Census addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Arabic, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.

CENSUS OVERVIEW

Year: 2017	Polygons at ADM: 5,890
Population Coverage %: 100	Number of Questions: 21
Geography Coverage %: 99.3	Number of Answers: 97
Smallest Geography Name: Shyakha	Data Points: 580,060
