

**More than numbers.** Census data provides unparalleled insight into the lives of individuals. In the first offering of its kind, East View presents the Latin America Census Collection, the inaugural offering of the East View Global Census Archive® (GCA). The Latin America Census Collection is an assemblage of authoritative census data from 20 countries across Latin America addressing a wide range of topics. Available for purchase individually by country, or as a group, the Latin America Census Collection is the premier source of demographic data for academic research.

### UNFETTERED ACCESS

**Making information available.** When initially acquired, census data is stored in a complex database structure, limiting access to those with significant database management and programming experience. East View simplifies access, formatting each collection into an easy-to-use geodatabase and providing a comprehensive User Guide. Follow the detailed instructions of where the data is stored, how to search for specific information, and how to visualize the data using a variety of GIS software. Additionally, the Latin America Census Collection contains the original census documentation for each country, allowing researchers to see first-hand how the data was gathered.

**The data that grow with you.** We understand that the needs of you and your organization change over time. The Latin America Census Collection will continue to grow as new data is acquired and made available for purchase. In addition, as new datasets are added to the GCA, enhancements will be made to the mechanics and user interface of all participating datasets. East View will provide updates that leverage these enhancements to you at no further cost providing you with ongoing value for your purchased collections.

### DELIVERABLES

GIS census products include:

#### Geodatabase

- Intuitive organization of census data
- Administrative boundary vector data

#### Shapefiles

- All vector and census data in ESRI Shapefile format

#### Census Guide

- Detailed instructions on how to query and visualize data

#### Original Census Documentation

- Delivered in native language of origin country

#### Metadata

- Full attribute level metadata in FGDC ISO format

**For more information about the Latin America Census Collection, or to request a free sample, please contact us at [info@eastview.com](mailto:info@eastview.com)**

## COUNTRY DATA

Country	Year	Pop Cov %	Geog Cov %	Smallest Geography Name	ADM Level	Polygons at ADM	Number of Questions	Data Points	Urban/FG
Argentina	2010	100%	100%	Departamentos	4	52,400	42	12,209,200	FG
Bolivia	2012	100%	100%	Municipios	3	344	28	111,112	FG

### Notes

- Pop Cov % indicates the percentage of total population of the country during the census year that this census covers
- Geog Cov % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

## CENSUS QUESTIONS

Below is a representative sample of census questions included in the Latin America collection. Please note that not all countries in the Latin America Census Collection ask each of these questions, or to the same level of detail. For country-specific lists of census questions, please contact [info@eastview.com](mailto:info@eastview.com)

### 1. Demographic

Relationship / Sex / Birth data and age / Marital status / Age at first marriage / Fertility / Mortality

### 2. Migration

Place of birth / Citizenship / Duration of residence / Place of previous residence / Year of arrival

### 3. Social

Literacy / School attendance / Educational attainment /

Field of education / Religion / Language / Ethnicity and indigenous peoples

### 4. Economic

Activity status / Occupation / Industry / Status in employment / Income / Employment in informal sector / Place of work

### 5. Housing

Living quarters / Water supply system / Sewage

disposal / Bathing facilities / Fuel used for cooking / Lighting and/or electricity / Solid waste disposal / Heating / Hot water / Piped gas / Number of occupants / Building type / Year or period of construction / Information and communications technology devices

### 6. Transportation

Vehicles owned / Primary transportation type
