

More than numbers. Census data provide unparalleled insight into the world's demographic, social, and economic development. The Argentina 2001 Census, part of the East View Global Census Archive® (GCA), addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Spanish, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.

Note: The Argentina 1991 and 2010 censuses (GIS editions) are also available through GCA

CENSUS OVERVIEW

Year: 2001

Population Coverage %: 100

Geography Coverage %: 100

Smallest Geography Name: Municipios

ADM Level: 4

Polygons at ADM: 46,579

Number of Questions: 85

Number of Answers: 377

Data Points: 17,560,283

Urban/FG: FG

Notes

- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

DELIVERABLES

The Argentina 2001 Census has 100% population coverage, over 17,500,000 data points, and consists of:

Geodatabase

- Intuitive organization of census data
- Administrative boundary vector data at ADM 4 (Municipios) for 46,579 census units
- Vector and aggregated tabular data at the Manzanas level

Shapefiles

- All vector and census data in ESRI Shapefile format

Census Guide

- Detailed descriptions for up to 377 census variables

Original Census Documentation and Database

- Delivered in native format
- Census questionnaires

Metadata

- Full attribute level metadata in FGDC ISO format

ADM 4/0 boundaries for all of Argentina; area in red is available as sample data
