

In the first offering of its kind, East View presents the **Global Census Archive®** (GCA), an innovative program to collect officially published census-related materials from around the world.

This global collection contains GIS census data (**GCA-GIS**) as well as all available census publications associated with a given census (**GCA-PUBS**), such as official results, questionnaires, methodological works, public campaign literature, and other census ephemera, as well as an East View-produced census catalog to provide historical context and serve as a finding aid.

WHY GLOBAL CENSUS ARCHIVE?

Data from published census authorities are unusable for systematic analysis because they are locked in thousands of paper documents, PDF files, and rare books dispersed across hundreds of websites and libraries.

Meanwhile, authoritative GIS data output is often not usable without extensive set-up and significant database management and programming experience.

East View provides a centralized publications platform and uniform GIS format for these materials, making a wide range of census assets easily accessible for discovery and analysis.

FEATURED COLLECTIONS

Latin America

Features GIS and Publication data for dozens of countries throughout Central and South America. Multiple census years are available for select countries.

100MM+

Will feature GIS and Publication data for recent and historical censuses for countries with populations of over 100 million people, including Brazil, Egypt, India, Japan, Mexico, the Philippines, and more.

GCA DELIVERABLES

Census Publications (GCA-PUBS)

GCA-PUBS provides a centralized platform for published content that accompanies the release of a census. Every census has official authoritative elements that East View aggregates, processes and makes discoverable on an intuitive and easy-to-use platform.

While the availability and type of materials will vary by country and census year, examples of typical published materials include:

- Official results (analytical and tabular)
- Questionnaires
- Survey forms
- Maps, atlases
- Methodological and preparatory works
- Public campaign literature
- Newspaper and journal articles
- Conference materials
- Legislative works

Also included in GCA-PUBS products:

- East View-produced census catalog
- MARC records (available upon request)

Current GCA-PUBS coverage includes:

Côte d'Ivoire	Netherlands
Ethiopia	Portugal
Tanzania	Switzerland
Samoa	Argentina
Qatar	Bahamas
Japan	Bermuda
Bangladesh	Bolivia
Myanmar	Brazil
Philippines	Cayman Islands
Armenia	Chile
Azerbaijan	Colombia
Belarus	Costa Rica
Estonia	Cuba
Georgia	Dominican Republic
Kosovo	Ecuador
Lithuania	El Salvador
Romania	Guatemala
Russia	Guyana
Serbia	Honduras
Ukraine	Mexico
USSR	Nicaragua
Denmark	Panama
Germany	Paraguay
Ireland	Peru
	Suriname
	Venezuela

Current GCA-GIS coverage includes:

Burundi	Malaysia	Cuba
Côte d'Ivoire	Myanmar	Dominican Rep
Egypt	Philippines	Ecuador
Malawi	Estonia	El Salvador
South Africa	Latvia	Guatemala
Tanzania	Lithuania	Guyana
Samoa	Russia	Honduras
Iran	Argentina	Mexico
Hong Kong	Bolivia	Nicaragua
Japan	Brazil	Panama
Cambodia	Chile	Paraguay
India	Colombia	Peru
	Costa Rica	Uruguay
		Venezuela

Note: The available coverage listed on this sheet is a sampling of what is available through GCA. Visit www.eastview.com/gca to see the full list of available GIS and PUBS data.

GIS Data (GCA-GIS)

East View's GIS census products offer the following:

- **Geodatabase**
 - Intuitive organization of census data
 - Administrative boundary vector data
- **Shapefiles**
 - All vector and census data in ESRI Shapefile format
- **Census Guide**
 - Detailed instructions on how to query and visualize data
 - Detailed descriptions of census variables
- **Original Census Documentation**
 - Delivered in source format
- **Metadata**
 - Full attribute level metadata in FGDC ISO format
